

Moisture Sensing Transistor Circuit

Create a simple transistor/LED circuit that can detect and alert for the presence or absence of moisture!

Written By: Andy Wallus

INTRODUCTION

Create a simple transistor/LED circuit that can detect and alert for the presence or absence of moisture!

-  **TOOLS:**
- [Scissors](#) (1)

-  **PARTS:**
- [Maker Tape](#) (1)
1/4" Wide
 - [2N3904 NPN Transistor](#) (1)
 - [CR2032 Battery](#) (1)
 - [Jumbo 10mm Diffused LED](#) (1)
 - [4700 Ohm Resistor](#) (1)
 - [Printable Template](#) (1)
