

Double Sided 2x2 LEGO

A 3D Printed LEGO Compatible part.

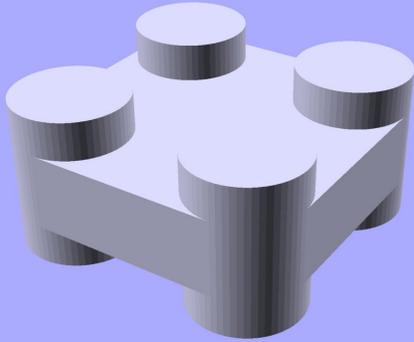

Written By: Pete Prodoehl

INTRODUCTION

A 3D Printed LEGO Compatible part.

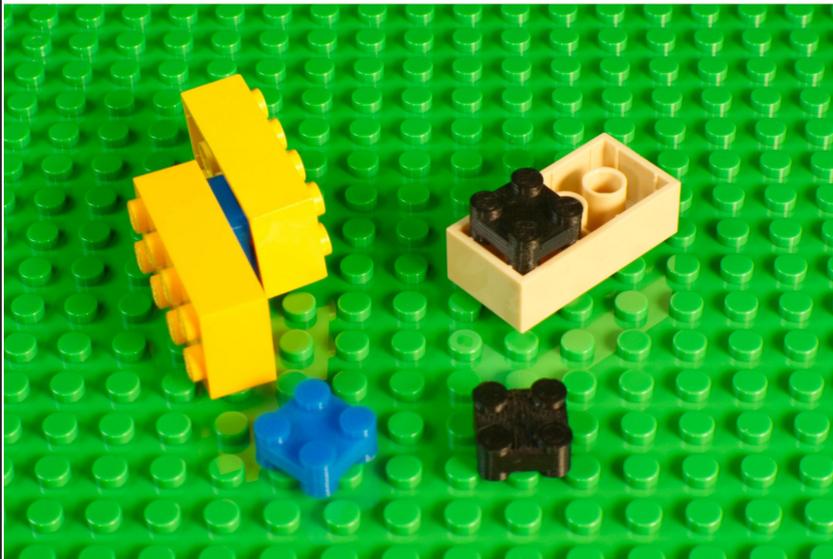

Step 1 — Download and Print

BROWN DOG
Gadgets

- You can download the file and print it on your own 3D Printer.
- Find it in our GitHub repository:
<https://github.com/BrownDogGadgets/3D-Pr...>

Step 2 — Tips & Tricks

- **Note:** We designed this so we could add Crazy Circuits LEDs to the bottom on LEGO projects.
- **Tip:** If the file does not have a tight fit you can try to print it a bit more than 100% scale. Try it at 101%, if it is still loose, increase to 102%, and so on.
