INTRODUCTION

Use the printable template and the instructions on the back of the template to help you create a colorable, light-up circuit card!

TOOLS:

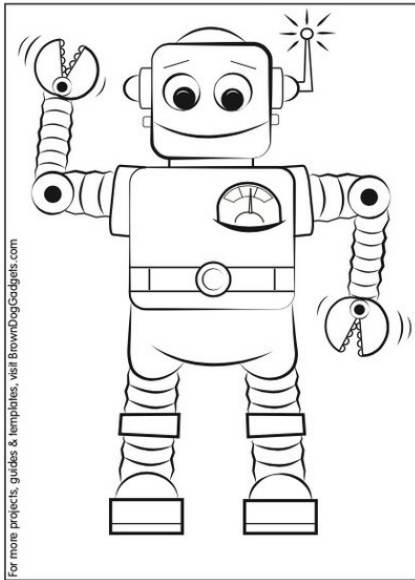

- [Scissors](#) (1)
- [Markers, Crayons, or Colored Pencils](#) (1)
(assorted)
- [Push Pin](#) (1)

PARTS:

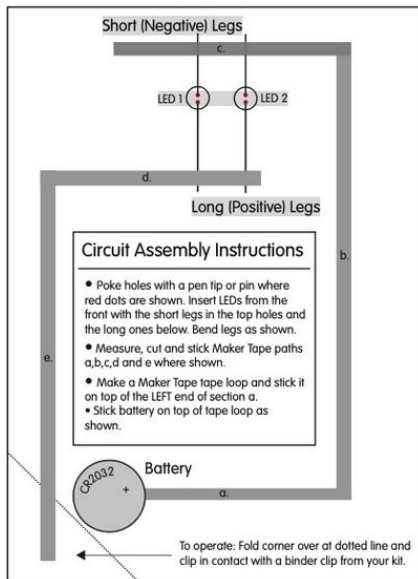

- [Paper Circuits Kit](#) (1)
- [Printable Template](#) (1)

Step 1 — Print & Color

- **Print and color your robot card** (don't spend a lot of time on the eyes...they will be LEDs in a moment).

Step 2 — Build Your Circuit

- **Flip your colored card over and follow the instructions on the back.**
