

Turkminator

Half turkey, half machine. Sent back in time to save the future.

Written By: Joshua

INTRODUCTION

Half turkey, half machine. Sent back in time to save the future.

This silly project uses a two layer approach to create a cyborg turkey. You can either use a single piece of paper and show off your conductive tape, or print off the second template to hide your wiring.

TOOLS:

- [Scissors](#) (1)
- [Glue](#) (1)

PARTS:

- [Maker Tape](#) (1)
- [Paper Circuits Kit](#) (1)
