You can make this project (and many more!) with our **Paper Circuits Kit**.

TOOLS:

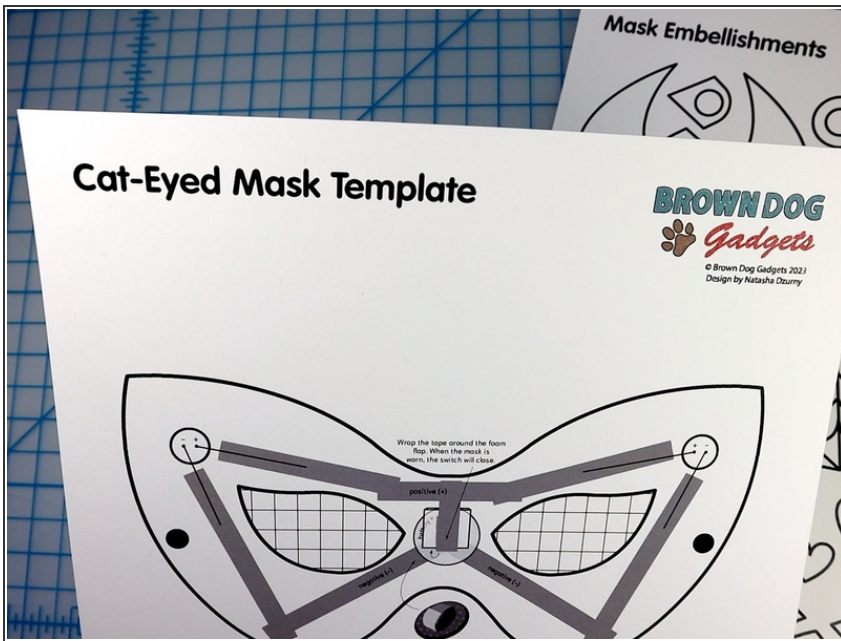

- [Printer](#) (1)
- [Scissors](#) (1)
- [X-ACTO Knife](#) (1)
- [Stapler](#) (1)
- [Hot Glue Gun](#) (1)

PARTS:

- [Paper Circuits Kit](#) (1)
- [Glitter Cardstock](#) (1)
- [Pipe Cleaners](#) (1)
- [Wooden Dowel](#) (1)
- [Glue Stick](#) (1)
- [Hot Glue](#) (1)

Step 1 — Print the Template

- Print out the Cat-Eyed Mask Template.
- *Note: You don't *NEED* the embellishments sheet, but you could use the ears on it if you would prefer paper ears instead of using pipe cleaners.*
- This guide is an overview of this design. For a more detailed circuit tutorial, see the [Light-Up Spider Mask Guide](#).

Step 2 — Follow the Template

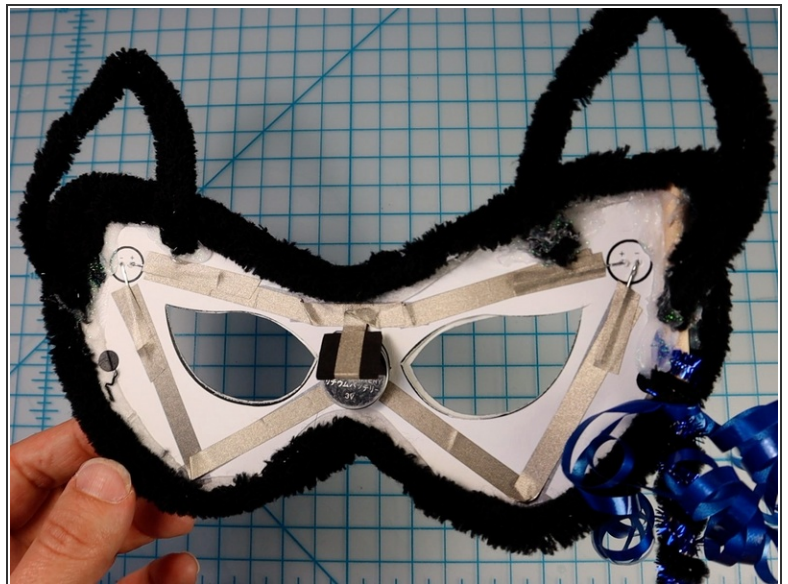

- Use a glue stick to glue the template to the back of a piece of glitter paper, then cut it out.
- Follow the template to build your circuit.

Step 3 — Add Embellishments

- Use hot glue to glue pipe cleaners around the perimeter of the mask on the front and the back. Look for the extra-fuzzy variety that is about twice the width of a normal pipe cleaner.
- Use the eye template to cut the eyes out of a contrasting texture of black paper or other matte material.
- Glue the eyes in place.

Step 4 — Add Ears

- Make two triangles with another piece of pipe cleaner to make the ears and glue them in place.

Step 5 — Make the Mask Stick

- Wrap pipe cleaners around a wooden dowel, then glue the dowel to the back for a masquerade style handheld mask.

Step 6 — Wear the Mask!

- Hold the mask to your face and become a cat!
