

Light-Up Glasses - Easter Bunny

Make light-up glasses that look like the Easter Bunny! Just add two LEDs, a CR2032 battery, and some Maker Tape.

Written By: Natasha Dzurny

INTRODUCTION

Make light-up glasses that look like the Easter Bunny! Just add two LEDs, a CR2032 battery, and some Maker Tape.

You can make this project (and many more!) with our **Paper Circuits Kit**.

TOOLS:

- [Printer](#) (1)
- [Scissors](#) (1)
- [X-ACTO Knife](#) (1)
- [Push Pin](#) (1)
- [Glue Stick](#) (1)
- [Hot Glue Gun](#) (1)
- [Markers, Crayons, or Colored Pencils](#) (1)
- [Glitter Glue](#) (1)

Optional

- [Glitter Mod Podge](#) (1)

Optional

PARTS:

- [Paper Circuits Kit](#) (1)
- [Cardboard](#) (1)
- [Colored Acetate](#) (1)

Step 1 — Print the Template & Follow Along

- Print the template above.
- To complete the circuit, follow the instructions on the template and in the main [Light-Up Glasses Guide](#).

Step 2 — Paint the Glasses

- Use acrylic paint to paint the glasses.
- Add glitter before the paint dries if desired.

Step 3 — Cut Out the Lenses

- Use the lens template to cut the lenses from colored acetate.
- Use hot glue to glue them to the back of the frames.

Step 4 — Color and Cut Out the Ears

- Color and cut out the ears.
- We added glitter to the ears with some Elmer's Glue. (optional)

Step 5 — Glue the Ears to the Frames

- Glue the ears to the frames and wear your glasses.
- Have a rosy day!
