

# Dancing Robot

A 3D robot that moves and shakes.

Written By: Joshua

# INTRODUCTION

This guide will show you how to create a moving and blinking 3D robot. Just cut out the template, fold along the dotted lines, and add the electronics. A custom pull tab lets you turn it on and off.

Make your robot do the 'robot'.

## TOOLS:

- [Scissors](#) (1)
- [Glue](#) (1)
- [Clear Tape](#) (1)

## PARTS:

- [Origami Circuits Kit](#) (1)
